Then Manning's men piled up three in the third inning, which mark was not reached by the visitors until the fourth, when the Wheat Grinders made four runs. PLUMMER IS WILLING.

An Attempt to Wrest the Local Championship From White Is

Imminent.

For the first time in many months the local bicycle world is talking, and from all accounts it is doing a great deal of wind jamming. The local riders have awakened to the fact that there is much sport in bi-cycle races when they are conducted in a

fin de siecle manner. Until the Velodrome was built the enthusiasts were compelled to put up with a mediocre imitation of the real sport, but now a change has come over the scorchers, and instead of running the risk of being arrested and fined they hie themselves to the Velodrome and work off their surplus energy. This tendency has established the fact that there are a few fast ones in Kansas City who may be induced to enter the professional ranks and go after Johnny White, the local track champion.

It has been stated that Oscar Plummer to

rew fast ones in Kansas City who may be induced to enter the professional ranks and go after Johnny White, the local track champin.

It has been stated that Oscar Plummer 'is willing to make an attempt to wrest the championship from Johnny White, and there are some others, but as yet the most determined and the most sanguine of the bunch is Plummer, and he will possibly arrange a match. The others seem to be out of the running. White is eager to try conclusions with Plummer, and the friends of Al Laitner are said to be willing to back him for a race for the championship. One thing is certain, if the local riders can ever be brought to stop talking and race, it will take but a short time to settle the championship. But as a follower of the wheel remarked last night, "The Kansas City cracks (?) are all dead quitters."

The preparations for one of the fastest race meetings ever held on the new track are progressing, and the riders are coming in droves. The two-mile open professional half-mile heats to qualify, promises to be at exciting event, as aside from the present out of Denver, and he is liable to make many of them hunt cover when he starts after a race. Bob Miller is another fast one that will cut a big figure in the starts after a race. Bob Miller is another fast one that will cut a big figure in the fastest sprinters in the business. John Lawson, "the Terrible Swede." has shown wonderful speed of late, and will be entered in the professional events on Thursday night.
